Event	ADVANCED INFRARED TECHNOLOGY & APPLICATIONS 2025 (AITA 2025)
Date	September 15 - 19, 2025
Event information	We are very honored and pleased to welcome you to the Advanced Infrared Technology and Applications (AITA 2025) at Integrated Research Center of Kobe University on September 15-19, 2025. This biennial international conference, mainly held in Italy, is now in its 18th time and has become a major event in the field. This time it will be held in Japan, at a pivotal moment when there are major changes in the application of advanced infrared technology and analysis methods to NDT, as well as their integration with IT, IoT, AI, and new energy industries. The symposium aims to provide a platform for comprehensive discussions on the latest international infrared measurement technologies and future prospects, and to provide an opportunity for broad-based research and its results, discussions, and technical exhibitions.
